ANNUAL REPORT 2022

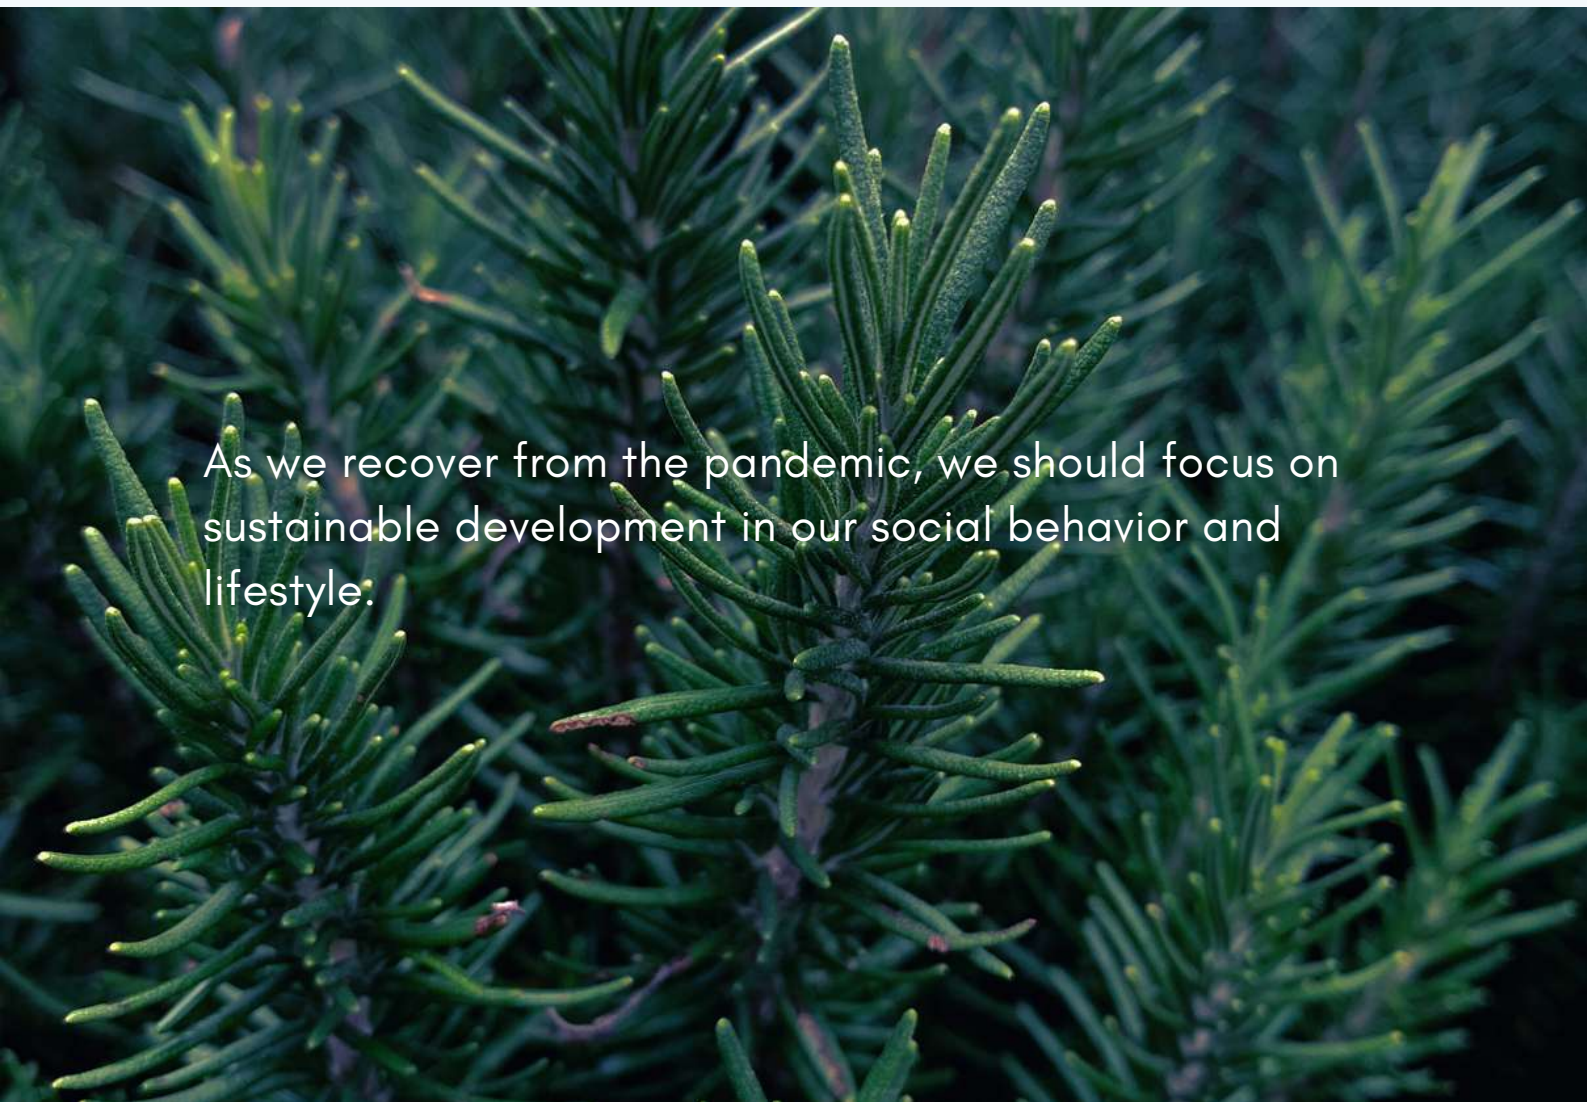

**TOGETHER,
WE HAVE THE POWER TO MAKE IT BETTER.**

A portrait of a middle-aged man with dark hair and a mustache, wearing a dark blue suit, white shirt, and red tie. He is looking directly at the camera with a slight smile. The background is plain white. Overlaid on the lower half of the image is a quote in a white, handwritten-style font.

The Future is Now

The pandemic has shown us that the future is uncertain, but we have the power to make it better. We have faced many challenges in the past, such as economic recession, learning gaps, and natural disasters, and we have always found ways to adapt and thrive.

As we recover from the pandemic, we should focus on sustainable development in our social behavior and lifestyle.

An aerial photograph of a vast, terraced rice paddy landscape. The terraces are carved into the hillsides, creating a series of green, stepped platforms. The rice plants are in various stages of growth, with some appearing as bright green and others as a more mature, golden-green. In the background, a small cluster of traditional houses with thatched roofs is nestled among the fields. The sky is a soft, hazy orange, suggesting the early morning light of sunrise. The overall scene is one of natural beauty and sustainable agriculture.

**This means making our environment cleaner
and more sustainable**

while also addressing the challenges we face today.

**We cannot just sit back
and take the future for granted.**

The future is now, and we have the power to make it better. Let's work together to create a better future for ourselves and for generations to come.

A photograph of two young children, a girl on the left and a boy on the right, both wearing green t-shirts, kneeling in a field and planting small green seedlings into the soil. The background is a soft-focus forest. The text 'MAKE CONSCIOUS EFFORT TO CHOOSE WHAT'S GOOD FOR THE COMMUNITY' is overlaid on the left side of the image.

**MAKE CONSCIOUS EFFORT TO
CHOOSE WHAT'S GOOD FOR THE
COMMUNITY**

In 2022, Yayasan Kossan (YK) focused on its environmental pillar in addition to providing more allocations for immediate relief to communities in need.

YK's environmental programmes included restoring and raising awareness on the importance of the Paya Bakau ecosystem.

We have planted 150 mangroves in our
Sijangkang Tree Planting Programme.

In a collaboration with Free Tree Society KL, YK's volunteers were empowered with the knowledge of greenhouse effects and hands-on plant cultivation techniques. They took home 3 plants each, to cultivate at the end of the class.

YK has also committed to cleaning Pantai Remis beach every year, a popular tourist destination in Kuala Selangor that receives an average of 1,000 visitors during peak season.

YK KIDS

Get Ready To

SCHOOL

As communities began to recover and schools resumed normal operations, Yayasan Kossan supported the YK Kids Gets Ready to School package by providing new uniforms, bags, and school supplies to low-income school children.

We resumed the Rancangan Makanan Tambahan (RMT) program for 90 students from 3 schools in the vicinity. The program provides a balanced meal to students on a daily basis at school, at a total cost of RM30,240.

The Future is Now

We can choose to build a future that
is more equitable and sustainable.

We can choose to build a future that
is better for all of us, starting now.
